

Roll Lifting with Bal-Trol

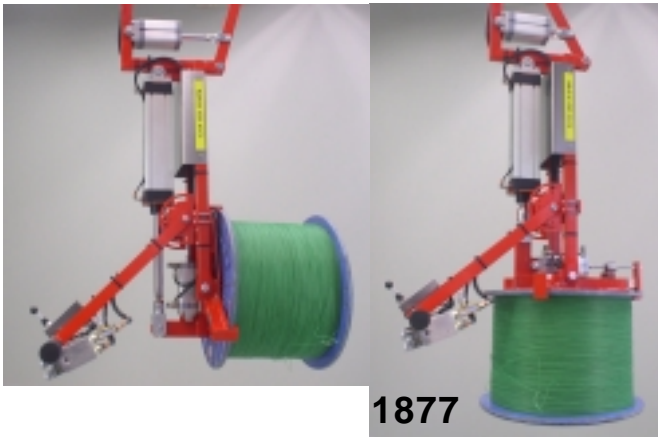

Roll Lifters are handling devices especially developed for handling of rolls of various kinds and shapes. They are designed for use in combination with Bal-Trol compressed air powered lifting cylinder.

Make life easier with Bal-Trol Roll Lifters

- driven by compressed air
- low self-weight
- easy to mount
- tailored for unique lifting purposes
- easy to operate, silent
- smooth movements, infinitely variable speed
- CE-marked, ergonomically designed grippers

Roll Lifting with Bal-Trol

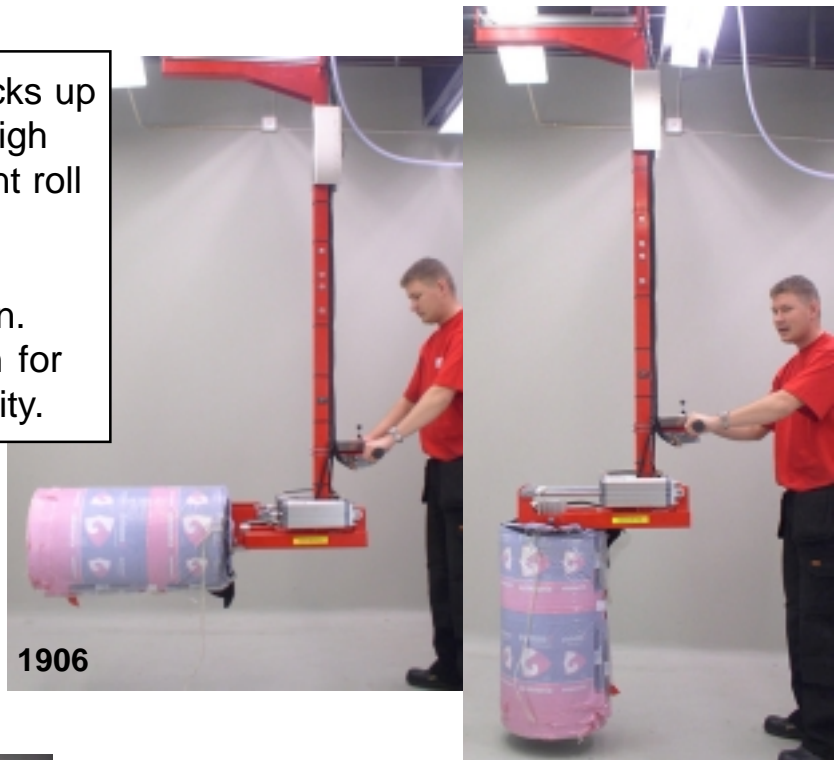

1877

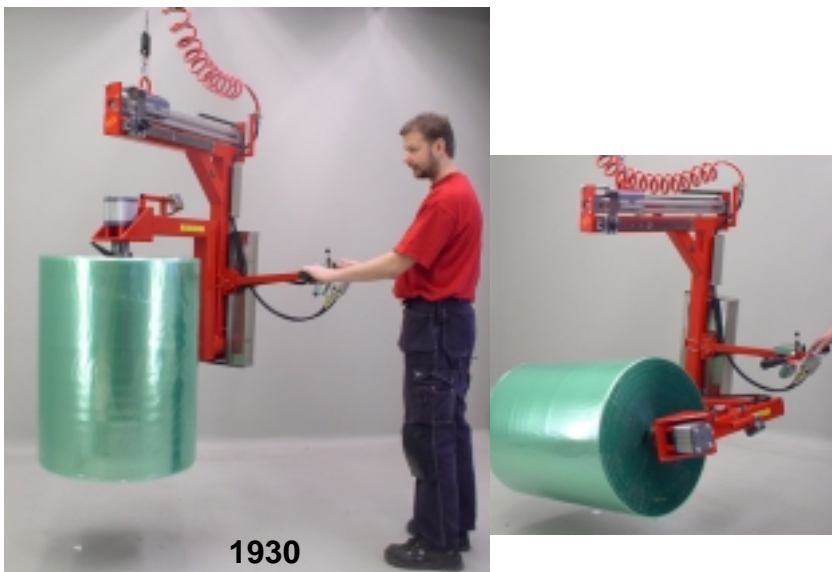

Mechanical gripper handles wire roll. Tilt function 90° up and down. Automatic compensation for change of centre of gravity. Articulated handle for comfort in vertical direction. Load 50 kg ref 1877

Mechanical expander picks up plastic film roll in core. High frame to be able to mount roll on axle underneath the packaging machine. Tilt function 90° up and down. Automatic compensation for change of centre of gravity.

Core Ø 76 or Ø 152
Load 100 kg
ref 1906

1906

1930

Expander picks up plastic film roll in core. Self balanced design enables manual turning of roll with minimum effort. Core Ø 76 or Ø 152
Maximum weight 350 kg
ref 1930

All roll grippers are pneumatically operated.

Mechanical expander for plastic film roll raises roll to standing position.
Core \varnothing 76 or \varnothing 152
Maximum 100 kg.
ref 1440

Same gripper without the tilt.
Only lifting of standing rolls.
ref 1202

Mechanical expander for cable reel raises roll to standing position.
Maximum 150 kg.
ref 1452

Weightless handling of spools 3 x 5 kg
ref 1688

Mechanical gripper handles cable roll.
ref 1916

Roll Lifting with Bal-Trol

Mechanical expander picks up paper roll in core. Tilt function 90° up and down. Automatic compensation for change of centre of gravity. Core Ø 76 or Ø 152. Load 100 kg. Lifts All ref 1725.

The fixtures described above have been especially developed for handling of rolls in the paper- and packaging industries.

They are examples of standard/semi-standard fixtures that are widely appreciated among Lifts All's customers

These grippers are designed for maximum operator safety and ergonomoy.
